AMONG THE ARTISTS.

Raphael Lewisohn, an American artist and a younger brother of the late Leonard Lewisohn, of New York, long resident in Paris, and who has won reputation in both France and Germany for his strong genres and portraits, will hold an exhibition of his works at the Oehme Galleries from March I next.

H. B. Fuller, who spent the last six months at his studio in Cornish, N. H., engaged a studio in New York, to remain until the late spring. He recently finished a large decoration.

George H. McCord is now in New York for a brief business visit. He arrived Jan. 24, after a stormy voyage from Genoa, and expects to remain until about March 1. He will then return to Venice, where he and Mrs. McCord have made their home for the past sixteen months. During the spring and summer Mr. and Mrs. McCord will travel slowly through northern Italy and the coast towns of France, probably going as far as Brittany, where Mr. McCord hopes to find material for marine painting, of which he makes a specialty.

The artist's stay abroad has included trips through England and Scotland and into Wales, with delightful and profitable stops in Clovelly and other picturesque spots dear to painters. Mr. McCord has sent home, during almost two years' absence, some thirty-six large and small canvases, scenes in

FAMOUS WEDGWOOD SALE.

Important sales are announced by the Fifth Avenue Art Galleries, No. 546 Fifth Avenue for next week. On Wednesday and Thursday afternoons will be sold the Azeez Khayat collection of iridescent Persian glass, etc., on Friday and Saturday afternoons the famous Wills collection of Wedg-wood, and on Thursday and Friday evenings pictures by the late Henry P. Smith and the late George H. Boughton, to be disposed of by order of the executrices Mrs. Lulu Smith and Mrs. Kate Boughton. Mr. James P. Silo will be the auctioneer.

The Wills collection of wedgwood is undoubtedly the choicest in the world, and is "chiefly remarkable," as says Mr. Horace Townsend in the well written preface to the handsome catalogue of the collection prepared by him, "for its unexampled richness in the busts, placques, figures and vases of the famous black or Basaltes ware, in high wedgwood worked almost exclusively before the invention of his Jasper ware. Many years ago Mr. Wills recognized the high value of Wedgwood's productions in this medium, and scarce as fine examples have now become, he was able to gather together a surprising number of pieces of the highest quality. Thus I may particularize the 'Somnus' absolutely the most important figure subject Wedgwood ever produced, as well as the bust of Antinous, Flazman's superb translation from the antique."

The collection is also rich in and notable for its portrait medallions. Those of the Prince and Princess of Wales are unequaled for rarity, the set of "Illustrious Romans" is complete, as are also those of the "Twelve Caesars" and the Roman Emperors from

Nero to Constantine.

Mr. Wills has drawn from such famous collections as the De la Rue, the Thomas Barlow, the Cornelius Cox, and those of Professor Church, Dr. J. L. as Wedgwood's own productions.

The freshness and spontaneity of these paintings make direct appeal, and when seen, as several have been, in large exhibitions of contemporary work they give a welcome note of individuality. ARTHUR WESLEY DOW.

Arthur Wesley Dow is holding at the Montross Galleries, No. 372 Fifth Avenue, to continue through Feb. 15, an exhibition of 38 oils, all landscapes painted in and around Ipswich, Mass., fifteen prints from wood blocks in the Japanese method, a book of poems, Salt Marshes," the verses by Everett Stanley Hubbard, and the illustrations, which are most delicate, artistic and effectives made by Mr. Dow with knife engraved wood blocks, and printed with inks on an ordinary press, and eight large photographic studies of old temples in Ceylon, India, Greece and

The landscape art of Mr. Dow is essentially a poetic art. He loves best to paint the quieter moods of nature on lowlying, widespreading salt marshes, the flowing and ebbing of the tides, the flushed quiet stream at dawn or sunset, the moon rising over some low hills, or anon the meadows gilded with goldenrod or starred with frost flowers.

To this poetic and sensitive nature the lowlands of the upper Massachusetts coast have naturally appealed, and he has transformed them to canvas with good works of art-calls for more of cessfully portrayed the feeling of space and distance of spreading marshlands. The artist paints variously in a high or low key, in thin washes or builds up his pigment to produce rich color effect. He is unusually versatile and shows certain canvases, such as 'From Bayberry Hill" and "Color Themes," almost in flat tints, which evidence that he is still experimenting and has not yet perhaps struck his final

Among the most appealing works are the tender diaphonous "Sea Turn," the Ipswich Roofs," rich in color quality, the "Marsh Islands" with fine distance and sky, the poetic "Night," the joyous "Blue Field" and "Frost Flowers," lovely in color and full of "summer and the sun," the "Tranquil Day," a tonal study of greens, the "Red Island," done in soft grays, and the "Silent Spaces," tender in color and feeling.

The prints, in which Mr. Dow has succeeded in getting remarkable effects, are as worthy of study as the

Of the figure painters in the present show, all have reached distinction and have won a reputation which, if not to last long, is assured for the present at least. Charles W. Hawthorne from the first a clever technician and a strong draughtsman, reveals in his 'Elijah in the Desert," and "La Gigla," unusually strong canvases, the result of long careful and close study of Ribera, El Greco and Goya. His "Boy with Pitcher" and "Boy with Bowl" are convincing figure works, sober but true in color. Hugo Ballin shows two of his characteristic decorative figure works "Thetis" and the "Voice of Summer" and a faithful strong likeness of the late Alexander Blumensteil, Among the portraits shown by Robert David Gauley are the now well-known and excellent presentment of Mr. Charles Battell Loomis, and the seated portrait of Miss M. from the late Winter Academy, with its well painted red gown and fine expression and pose. The artist also sends a portrai of a lady, a charming arrangement of grays. The dashing brush of Luis Mora is exemplified by his well-known full length portrait of Mrs. Mora, and his "Lady Dorothy" and "Don Diego" and also a well characterized group of Hungarian women and children.

Of the landscapists Williams, Turcas, DuMond, Foote, Robinson and Gifford Beal are represented by familiar and typical canvases. Emil Carlsen sends his delightful coast scene "Summer Clouds," a forest interior, a flower piece and a low keyed still life, which well show his versatility. W. L. Lathrop his strong fine outdoors "Melting Snow," Ochtman his truthful poetic "Snow Fields," Allen B. Talcott some of his picturesque feeling scenes in and around Old Lyme, and Albert L. Groll six of his Arizona landscapes appealing to all lovers of wind swept space and air and light, and his rich glowing "Falling Leaves," perhaps his strongest work.

OLD MASTERS

The Portrait Show of "Old Masters" at the Ehrich Galleries, 463-465 Fifth Avenue, is gathering interest as the many visitors spread report of its attractiveness. The attractive portrait of Marie Mancini (the first love of Louis XVI.) by Pierre Mignard; the charming presentment of the Princess of Orange, by Nicholas Maes, painted in his late period, and so wholly different from the Maes of the early Rembrandt period purchased from the Ehrich Galleries by the Metropolitan Museum; the virile likeness of Neil Gow, the Scotch fiddler, by Sir Henry Raeburn, the greatest artist of the Scotch School, whose work begins to bring fabulous prices, would alone justify a visit to this show of the "Old Masters.
